Department Reports

The City Recorder explained that for some time, a local ag producer has used the City's biosolids as fertilizer in their operation. The ag producer has asked the City to pay for the spreading. Mayor Younger reminded the board that disposing of biosolids in this manner saves as much as \$40,000.00 per year (the alternative is to pay for the biosolids to be hauled to a landfill); the cost of spreading the biosolids is estimated to be less than \$4,500.00 per year. Motion made by Michael Barron, seconded by Craig Blackburn to pay for spreading the biosolids. Motion carried with all ayes.

The City Recorder reported that the City had received the State Volunteer Firefighter Equipment and Training Grant payment.

Committee Reports

Park Committee Chair Bett Jewell asked for a committee meeting to be scheduled. She also asked about some downed trees behind the junior high school. Mayor Younger said that he was unsure the public works crew can handle that, but will look into other options.

Unfinished Business

Alderman Blackburn asked about the status of the fire hydrant at the corner of Maple Street and Main Street. Mayor Younger said the concrete would have to be cut and it might be involved. Mayor Younger asked Assistant Water Operator Tracy Cole to see what can be turned off downtown.
